Summary

I am a self-sufficient junior full-stack web developer with a passion for learning and experiencing new things. I am a quick learner and excited to get started in my new career.

Education

San Jose State University

Concentration in Economics
2008 to 2011

Coding Dojo

Completed courses in Lamp, Mean, and Ruby on Rails.
2016

Projects

Bucket (check)List

A MEAN application that allows users to create a bucket list. Bucket list items can be checked off to indicate whether they have been completed. Users can view and comment on others' lists, as well as like the comments other users have left.

Book Review Site

The book review site is a LAMP application, it is a database of books and authors wherein users can add their reviews of those books. Users can add books or authors to the database if they are not already existing. Each book has a page with all of the reviews and ratings given to it.

General

Skills/Concepts

TDD/EDD
CRUD
MVC
RESTful routes
Git
AWS EC2 deployment
